

Summary of the Changes to the Section 10 Deed Restrictions

Meyerland Section 10's Deed Restrictions were last updated in 1988, about 35 years ago. A lot has happened in home building, materials, and regulations during that time. The changes in the new Deed Restrictions will modernize keep Section 10 attractive for residents and builders.

Below is a summary of the changes, mapped back to the current Deed Restrictions, which can be found on the Meyerland website or via this link: <https://bit.ly/MCIA10>.
